ABOUT ME

My name is Miljan. I am a Web Developer, occasional YouTube content creator, and React & JavaScript enthusiast.

From the moment I got my first computer when I was 6 years old, I fell in love with technology and began to explore it in more detail. The inquisitive spirit that I carry within me has always encouraged me to explore and study new things and technologies.

On my path of research, of course, web technology also found its way, which I immediately fell in love with. Fast-forward to today and I'm working as a freelance web developer.

SKILLS

- JavaScript
- React
- TypeScript
- Redux
